Dear Secretary: Please read at three consecutive meetings and make a copy for all members. Thank you.

The Abuse Can Stop Now With A Little Help From Everyone!

Hi,

My name is Donna and I volunteer at the World Service Office. After giving birth to my last child, memories started flooding back. I knew some of what happened as a child. It felt like it was too much, and I wanted to commit suicide. When going to my family they denied the abuse, and I was rejected. When I was ready to end my life, I looked at my baby girl, only four months old, ran to the phone book and opened it up to SIA's phone number. I called and started attending meetings. I was broke and had no extra money, but they still helped me. Now I am giving back by volunteering.

Please help by sending in your financial support. SIA saved my life and my children still have a mom. With the education of SIA, incest stopped in my family with my children; I've traced it back five generations. Now it's over. Please help us continue to fight for lives and the safety of children and adults.

Donna, PA.
