

Conference Structure Committee Report

This year, the World Service Conference Structure Committee has seen to the posting of WSC committee descriptions on the SIA web site under Volunteer Opportunities so that members wishing to volunteer may be able to obtain a quick overview of the purpose of each Committee. The descriptions are short summaries and should remain so. Each committee can and may write much fuller descriptions of what their mission and purpose is for their own use. The Structure Committee aims to keep this tab updated as to Committee Chairs and members so that people wanting to volunteer will be able to see which Committee needs the most help. Committee Chairs are encouraged to visit this web site tab and inform the Structure Committee of any changes that should be made. Contact: 813juanita@gmail.com. The Structure Committee will contact the web site manager to see that changes are made (as long as they are in keeping with SIA Traditions and By-Laws). Each Committee is encouraged to submit committee reports to the Newsletter. Committee Chairs should include a contact email in the Newsletter if they want service volunteers to contact them directly.

The Conference Structure Committee has also worked on expanded definitions of each Concept and will present them to the WSC in order that these Proposed Concepts be more fully understood, and to start fielding questions on them. The Conference Structure Committee will have some longtime members of SIA read them for historic and traditional accuracy before submitting them for approval by the membership. Once these definitions are approved, they may be formatted into an informational pamphlet and later become part of an SIA Service Manual.

The Proposed Concepts of Service and Their Definitions: [Concept and definitions follow]

Submitted by the WSC Conference Structure Committee
